Professional Profile

A Professional Frontend Engineer with a proven track record of over 3 years in the web development domain. Expertise lies in UX integration, MVP development, testing/debugging, and web performance optimization. Demonstrated proficiency in translating intricate UX designs into dynamic web interfaces using technologies like React, Next.js, and TypeScript. Recognized for leading the development of the "AskaDoc" application in 2023 and the successful refactoring of the "Heckerdata" application in 2022. Adept at crafting scalable MVPs, spearheading client projects, and ensuring timely delivery with optimal resource utilization. Proficient in CSS preprocessing, version control using Git, and team management. Holds a B.Sc. in Estate Management from the University of Lagos, Nigeria, and has been certified by Udacity and Freecodecamp in 2019. Committed to upholding the highest standards of Web Development while staying abreast of the latest industry trends.

Core Skills

- UX Integration
- MVP Development
- Testing/Debugging
- CSS Preprocessing
- Presentations
- Project Monitoring & Quality Assurance
- Version Control/Git
- Web Performance Optimization
- Team Management

Career Achievements

Key Track Records

- Led the development and team for the "AskaDoc" application in 2023.
- Single-handedly refactored and rebuilt the "Heckerdata" application in 2022.
- Successfully qualified and completed the inaugural "Realkathon 2019" organized by Pertinence LTD.

Career Summary

May 2021 – Present

Frontend Engineer
(Heckerbella LTD)

Key Responsibilities

- Crafting scalable MVPs ensuring robustness and efficiency.
- Organising client and internal projects, ensuring timely delivery and optimal resource utilization.
- Implementing high-performance solutions to guarantee maximum speed and scalability.
- Authoring reusable and efficient code catering to a wide range of projects.
- Monitoring project milestones, ensuring the practicality and functionality of solutions align with client requirements.
- Upholding compliance with industry standards and UI principles, while staying abreast of the latest front-end technology trends.

Feb 2022 – Jan 2023

Frontend Engineer
(Beldore Teach)

Key Responsibilities

- Engaged proactively with stakeholders throughout the development lifecycle to validate design proposals and ensure alignment with best practices.
- Arranged comprehensive website development strategies, transforming design mock-ups into dynamic web interfaces leveraging frameworks like React, Next.js, and TypeScript.
- Spearheaded the creation of responsive and interactive web applications using cutting-edge technologies such as React and TypeScript.
- Seamlessly translated intricate UX designs and business objectives into clean, maintainable, and elegant code solutions.
- Worked closely with UX/UI designers, backend developers, and product managers to ensure a cohesive and holistic approach to web development.
- Regularly profiled and optimized code to ensure the delivery of high-performance web applications, enhancing user experience and engagement.
- Implemented rigorous testing and code review processes to ensure the robustness, security, and scalability of web applications.

July 2020 – Feb 2021

Frontend Engineer
(Freelancer)

Key Responsibilities

- Skilfully translated intricate designs into extendable and maintainable code structures, successfully deploying over 6 websites including notable projects like 'fartra', 'my portfolio 1.0', and 'my portfolio 2.0'.
- Developed and implemented high-performing solutions, focusing on enhancing website optimization to ensure maximum speed, responsiveness, and scalability across various devices and browsers.
- Diligently monitored ongoing project progress, ensuring that the functionality and feasibility of UI/UX solutions consistently met or exceeded client expectations.
- Collaborated closely with UX/UI designers, backend developers, and other stakeholders to ensure seamless integration and alignment of frontend functionalities with backend systems.
- Stayed updated with the latest frontend technologies, frameworks, and best practices, ensuring the delivery of modern and innovative web solutions to clients.
- Regularly communicated with clients to gather feedback, making necessary adjustments to the frontend design and functionality to align with their vision and objectives.
