Professional Summary

Results-driven Frontend Engineer building scalable, high-performance web applications using React, Next.js, TypeScript, and JavaScript. Strong foundation in core programming concepts, UI architecture and responsive designs with a proven record of improving code quality, performance, and development efficiency. Collaborative team player and effective communicator with strengths in problem solving, cross-functional coordination, testing and building in modern frontend stacks.

Work History

Senior Frontend Engineer, Prodevs – Remote Apr 2024 – Jan 2026

- Built and led development of Talentapply.io an AI-powered job readiness platform with CV generation, application tracking, interview preparation, and other features.
- Developed a companion Chrome extension enabling instant job application autofill and integration with major job boards.
- Refactored and implemented new features on Tacbay web app, improving code maintainability by 35%.
- Worked on intensive client applications such as Mentra web app, Tacbay, TalkAM, etc.
- Implemented code review processes to ensure robustness, security, and scalability of web applications.
- Collaborated closely with UX/UI designers, backend developers, and product managers for a cohesive development process.
- Supervised and led frontend-related projects, enhancing development plans to meet client requirements achieving 95% on-time project delivery.
- Enhanced development plans to meet client requirements within set timeframes.
- Integrated APIs seamlessly into existing infrastructure, expanding functional capabilities, reducing data loading times by 99%.
- Built and maintained internal tools such as the Tacbay Admin.

Frontend Engineer, Heckerbella Ltd – Lagos May 2021 – Apr 2024

- Crafted scalable MVPs ensuring robustness and efficiency with 99% uptime performance.
- Organised client and internal projects to ensure timely delivery and optimal resource utilisation.
- Developed client software from inception to production, including *Mycareerconnect*, *LUC*, and telemedicine products such as *Tendarly*, *Heckercare*, *Fetra*, etc.
- Implemented high-performance solutions to guarantee maximum speed and scalability that improved application load times by 95%.
- Authored reusable, efficient code adaptable to various projects, reducing development time by 30% across projects.
- Monitored project milestones to ensure alignment with client requirements.
- Maintained compliance with industry standards and UI/UX principles.
- Developed intuitive user interfaces to enhance user experience increasing user engagement by 60% on solutions.
- Consistently updated technical knowledge to stay ahead of industry trends.
- Built internal tools such as *Tendarly-admin* and *Fetra-admin*.

Frontend Engineer, Beldore Tech – Lagos Feb 2022 – Feb 2023

- Collaborated with stakeholders to validate design proposals and ensure adherence to best practices.
- Created comprehensive website development strategies, transforming design mock-ups into responsive web interfaces using React, Next.js, and TypeScript.
- Led the creation of interactive web applications using cutting-edge technologies.

- Translated complex UX designs and business goals into maintainable, elegant code with 95% design accuracy.

Frontend Engineer, Freelance – Remote

Aug 2020 – Feb 2021

- Translated designs into maintainable, scalable code for projects such as *Fartra* and personal portfolio versions 1.0 & 2.0
- Developed performant solutions for maximum speed and scalability
- Tracked project progress to ensure feasibility and alignment with client requirements
